Important: For any LVL Lashes, or eyebrow/eyelash tint services an Allergy Patch Test is required (free). Please visit the salon 48 hours before for a complimentary patch test.

The patch test involves putting a dab of Tint behind the ear, leaving it there for one days, and looking for itching, burning, redness, or other reactions. If you experience any of these symptoms you must not continue with the treatment but seek medical advice.

You should always tell your therapist before you begin any treatment if you have experienced any allergies.

If you are one of our existing clients and haven’t had a patch test in the last six months please request one, as it’s better to be safe than sorry. Allergies can be triggered at any point.

For Weddings, Corporate Meetings, Stag & Hen Party Services please ask, we are very happy to cater for big groups.

**Terms & Conditions:** Adoré Salon will correct any hair services, including permanent/semi permanent colour service within 48hrs of treatment being carried out and following a complimentary post consultation within 72 hours of the service been provided and authorisation from management.

We will also correct any perms, Brazilian blowdrys, services within 4 days, again following a complimentary post consultation within 72 hours with authorisation from management.

If clients cannot make themselves available for the complimentary post consultation, the salon will be unable to take any responsibility or liability thereafter. If clients exceed the time limits for correction of these services we have the right to ask for payment if a correction is still desired.

For this reason we recommend if going away on holidays to book at least 72 hours before you are scheduled to travel, so you can attend the complimentary post consultation.
